

## Kronos: Stage Piano

Cat-Nr: -

Kronos: Stage Piano

Artikel info:-

Stage Piano is an unusual sample library in the Grand Piano market segment: Instead of highly enhanced and superpolished sounds it delivers worn out instruments, Grand Piano with pickup and Electric Grand Pianos. Their sound is intentionally the opposite of perfect but with lots of own and unique character. You can literally smell the club stage when playing these sounds.

The sample library comes with 5 different instruments with up to 5 Velocity Switches to provide a decent dynamic response along with 10 ready-to-use Program Presets. This includes a Controller programming for Knoby 1-8, S1 and S2 Switches and Ribbon.

Most important Controller assignment is the Ribbon: A slide to the left and the timbre will be a little softer and a slide to the right makes the sound more brilliant. If you want to fix a such a momentary setting for a while you just need to push SW2 Switch. Also you can keep the SW2 Switch in ON Mode (LED lit) and change the timbre character by simply sliding a little more to the left or right on the Ribbon.

With SW1 Switch the sound will be transposed one octave down which is a handy function for 61 and 73 keyboard versions.
