Kronos: Electric Piano & Clavinet

Artikel info:-

A fine sample library for a lover of Vintage Electric Pianos and Clavinet. 9 different instruments with up to 5 Velocity Switches: Fender Rhodes Mk1 73 and Suitcase 88, a Mk2 73 model, two Wurlitzer EP200, a Hohner Electra-piano, two Clavinetts (D6 and E7) and finally the famous DX7, which is famous since the 80s for its E-Piano alike and Clavi sounds.

The sample library comes with 25 ready-to-use Program Presets. This includes a Controller programming for Knoby 1-8, S1 and S2 Switches and Ribbon.

Most important Controller assignment is the Ribbon: A slide to the left and the timbre will be a little softer and a slide to the right makes the sound more brilliant. If you want to fix a such a momentary setting for a while you just need to push SW2 Switch. Also you can keep the SW2 Switch in ON Mode (LED lits) and change the timbre character by simply sliding a little more to the left or right on the Ribbon.

With SW1 Switch the sound will be tranposed one octave down which is a handy function for 61 and 73 keyboard versions.
