Cat-Nr: -

Fusion: MyOrchestra 4.0

Artikel info:-

This new sample library now provides over 120 different orchestral instruments, 100 orchestral percussion instruments, several choirs and a large collection of special effects like orchestra hits, chords, scenes and more: The instruments are offering various sound characters to make this collection perfect for all musical styles. A perfect sound collection with extremely useful playability thanks to the perfect Controller assignment for all friends of the orchestral instruments.

A wide range of instruments to use for orchestral scores, movie soundtrack, modern pop and rock music as well as experimental styles. Including a large and fine creation of sophisticated Programs by using the Fusion's features.

The sample library content covers orchestral instruments from Clarinet, Oboe, Trombone to full orchestra string and brass sections and choirs. Additionally you can find special sound effects like Orchestra Hits, Swells and a huge orchestral percussion collection including Gongs, Cymbals, Timpani and many more. New version 4.0 also provides modern orchestra instruments which are typical for movie sound. The Program presets are designed with full Controller programming for a lively and virtous performance 362 Program Presets: Layers and single instruments. Sophisticated and very practical Controller programming for Control Knobs 1-4 plus Trigger buttons and SW Switches, Modulation Wheel, Aftertouch, Pitch Bend. 300 MB sample library, over 130 instrument samples, 100 orchestral percussion instruments. Archive Program Presets (additional library handling tool).
