Kronos: German Orchestra

Artikel info:-

Inspired by famous german classical music composers like Ludwig van Beethoven, Gustav Mahler and Richard Wagner this sample library w/Presets bank provides all those instruments that made their sound so unique. Legato and Arco Strings, Choirs, Brass, Woodwinds. The sound content even delivers several instruments which are used for modern german ensembles including Saxophone, Church Organ, Acoustic Guitar and Dulcimer.

Everything combined in just one single convenient sound bank for easy handling.

And a decent Controller Assignment system allows a perfect performance control. The standardized Controller programming for Control Knobs 1-8, S1 and S2 switches, Ribbon, Joystick works identical for each Preset. SW1 always acts as Octave Down button, the Ribbon controls the brilliance, Realtime Knob 5 is the Attack Time modulator, Knob 8 allows to adjust the Reverb Intensity and so on.

Each Program Preset provides the sound with this standard Controller assignment which is the same for the all Program Presets, plus a ready-to-use Drum Pattern and one KARMA setting.
