

Garrahand

Cat-Nr: -
Garrahand

Artikel info:-

This sound collection provides samples taken from the unique idiophone percussion instrument Garrahand. Originally from the Caribbean area and Argentina it has an intriguing timbre with low, mid and high tones. It can be used for melodic solo percussion parts and is also a great addition to a percussion set with several instruments.

The sample library comes with single tones, spreaded all over the keyboard and tone sets where the original tones are assigned as timbre color variation to each C key. Also, a couple of fills, repeaters, short licks are rounding up the Garrahand sample library.

20 multisamples and long-stretch one-shot sample instruments provided with 20 ready-to-use Program Presets. Including Kontakt Drum pattern script (default position: Bypass).
