

Vintage Korgies 2

Cat-Nr: -
Vintage Korgies 2

Artikel info:-

In the late 70s and through the 80s Korg developed several analog and digital synthesizers, string ensembles and electronic pianos. They wrote musical history and were used worldwide by keyboardists live on stage and in recording studios. Names like Kitaro, Geoff Downes, Keith Emerson, Rick Wakeman, John Miles among many others – they all played these instruments.

This sample library provides 100 sounds taken from the
