

Dream Imaginery

Cat-Nr: -

Dream Imaginery

Artikel info:-

The Dream Imaginery provides the right atmospheres for film soundtrack, commercials, computer games, slide shows. Sonic scenes that highlight the visuals. Even audiobooks to inspire the spontaneous inner cinema effect. A great soundtool also for any other music production where atmos are on demand.

The most sounds are evolving and with long duration - up to 2 minutes length. Bizarre, unusual, scary, surprising, strange, funny & always with an interesting character to illustrate film scenes and pictures with a sonic feeling.

105 ready-to-use Presets, where the Pitch Bend range is always 12 semi-tones. Also, every Preset is assigned to the same Convolution reverb to allow an identical room atmosphere when using several Presets simultaneously.
