Alesis Fusion ROM-Expansion 3.0

Artikel info:-

One big package with 230 new multisamples and over 900 Presets: The Fusion ROM-Expansion 3.0. It is a multi-category sound library with 4 sample banks and a wide range of instruments. Pianos, Electric Pianos, Chromatic Percussions, Organs, Guitars, Bass, Choirs, Strings, Orchestrals, Brass, Reed, Ethnic Instruments, Woodwinds, really legendary Synths, SFX and more and with sophisticated and standardized Controller assignment. Library size 500 MBs.

All instruments and sound multisamples and one-shots are especially designed for the use with the Fusion. The samples can be transferred to the Fusion via USB from the computer the instrument's internal harddisk by a simple drag and drop. All samples are instantly usable with professional programmed Program Presets. A full 40-page documentation PDF with many useful how-to tips is included as well as a Quick Guide how to handle the data transfer from computer to Fusion.

Instrument details: Yamaha C7 and Stage Grand Piano, processed Grand Piano and Pluck Piano, Rhodes Suitcase 88, Wurlitzer EP, Clavinet, B3 and CX3 Organs, Clean Stratocaster, Jazz Guitar, Distorted Lead Guitar, 6-string Acoustic Guitars, 12-string Acoustic Guitar, Buzouki, Mandolin, Saz, Celtic Harp, Dulcimer, Pick Bass, Musette Accordion, Arco and Legato and Solo Strings, Brass Section, Horns, Trumpet and Muted Trumpet, Trombone, Tenor and Soprano Sax, Mixed Choir, Vocals and Vocal FX, Ney Flute and several Woodwinds, Alesis Andromeda Pads, Yamaha CS80 and Roland Jupiter 8 Pads, Memorymoog PolySynths, Korg PS3100 PolySynths, Minimoog and Korg 700S and Roland MKS80 Lead Synths, Moog Taurus and Korg EX8000 SynthBass, Digital Layersynths and many more analog and Synthesizers plus a huge collection with Special Sound Effects.

The Program Presets are provided with two category types: Instrument collections for quick access to specific instrument groups, and Session collections with multi-category sounds which are perfect for freestyle playing around with it and to get inspired. Of course all them are assigned to categories as well.

Alesis Fusion ROM-Expansion 3.0

Additional Special instrument category Program Presets groups:

Choir: The human touch for your Fusion! Over 50 nicely created Choir and Voice Program Presets. With sophisticated Controller Assignment concept for easy and effective use. Exciting blend and layer effects by a simple turn of a Control Knob!

Wind & Sax: Perfectly playable woodwind instruments and Saxophones thanks to a decent Controller Assignment concept for a persuasive and natural sounding performance. This new sound collections provides 40 different and versatile playable Program Presets.

Plucked Instruments: Fine plucked instruments from Buzouki to Zither! Play it like the original instrument thanks to the provided Arpeggios and special Controller Assignment. The 25 Program Presets are the perfect addition to the Guitar Presets collection.

Piano: A Program Presets collection for the special demand Electric Piano. 40 very dynamic playable Programs considering all the legendary instruments: Fender Rhodes MKI, Suitcase 88, Wurlitzer, Pianet as well as neo-classics GS1 and DX7. Created with samples, FM and VA this is a perfect library for all those who want really good Electric Pianos for the Fusion.

Guitar: This Program Presets collection provides Acoustic and Electric Guitars. 60 carefully designed Programs with following instruments: 6-string and 12-string Acoustic Guitar w/Steel Strings, 6-string Acoustic Guitar with Nylon Strings, several Electric Guitars (Stratocaster, semi-acoustic Jazz Guitar, Les Paul) and even overdrive and distorted Guitars. Special Controller assignment for slides, brilliance, feedback etc. to make them conveniently playable on a keyboard. Including typical guitar style Arpeggio assignments!

Alesis Fusion ROM-Expansion 3.0

Bass: This is THE bass soundbank and provides the 45 bass sounds every Fusion owner must have. Picked, fingered, Fretless, Minimoog, Taurus, DX7, Slap Bass, muted - everything you need just in one single bank.

Multi-Session soundbank groups: The heart of the ROM-Expansion 3.0 are the 8 Program Presets banks with a multi-category organized sound collection. Single instruments, layered sounds with percussive and pad elements, fat leads and superstacks and even evolving atmospheres and sound effects. Perfect for intro and outro of a song, solo parts, typical synthesizer additions to any song, film soundtrack, commercial. And perfectly suitable for improvisations, also when playing around with sounds to get inspired. A colorful collection with kind of established timbre characters as well as totally new and unheard sounds. And it shows what the Fusion really can do for your music!
