The Traumstadt

Cat-Nr: -
The Traumstadt

Artikel info:-

Wide horizon soundscapes, technoid and industrial drum- and percussion loops, reverse stinger effects, long evolving sonic scenes - this is The Traumstadt. Mystic and weird atmospheres, hard hitting beats, pulsating rhythm effects.

The Traumstadt includes scenes with length until 30 seconds and longer. Usually the end is a smooth fade out or an ending. Also the loops are 8 or 16 bars, in some cases created as construction kit and so called build up versions and the sample name already provides the bpm for quick search and found.
